Evidence and method

Published-rate source files: 2026-08-17_Blue-Cross-and-Blue-Shield-of-Texas_Blue-Essentials-295781_in-network-rates.json.gz

Findings are lines worth reviewing, not proof of underpayment. Expected amounts use the lowest rate the payer publishes for the provider under the Transparency in Coverage rule; the provider's contract governs. Allowed amounts include the patient's share, so deductibles and co-pays are not counted as gaps. HIGH confidence: one exact published dollar rate. REVIEW: several rates or a derived (estimated) rate.
